4, In Bluetooth standby mode, it will shut down automatically if no operation. Bluetooth is prior to MP3.

5, MP3 can not automatically shut down. Please shut down if no using to avoid affecting use next time.

## Troubleshooting

If you are unable to connect your headset and mobile phone, please try the followings:

--Ensure your headset is turned on and properly charged.

--Ensure the headset is paired with your mobile phone.

--Ensure your mobile phone's Bluetooth feature is activated.

Please refer to your mobile phone user guide for specific instructions.

--Ensure the headset is within a 10 meters range of your mobile phone and there are no obstructions, such as walls or other electronic devices in between.

- If the above steps do not solve your problem, please recharge the headset and restart your mobile phone.

## Care and Maintenance Headset

---

--Consider turning your headset off before placing it in your pocket or bag. If the MBF is accidentally activated, your mobile phone may place an unintended call.

--Do not expose the headset to liquid, moisture or humidity as it is not waterproof.

--Do not use abrasive cleaning solvents to clean the headset.

--Do not expose the headset to extreme temperature conditions. The best store temperature range is from -10 to +60, otherwise the life of the headset will be influenced.

--Do not dispose of the headset in a fire as it this may result in an explosion.

--Do not bring your headset into contact with sharp objects as this will cause scratched and damage.

--Do not insert any objects to the headset as this will damage the components inside.

--Do not attempt to disassemble the headset as it dose not contain serviceable components.

- If you will not use the headset for long periods, be sure to store it in a dry place, free from extreme temperature conditions and dust. If the headset is placed for more than 1 month, please charge it on time to make sure the battery and the headset's working performance.
